MOUNTFORT ACADEMY

CISCE (ICSE & ISC) | Co-educational | Pre-KG to Gr. 12

**because
everyone IS an
achiever...**

Run by a team of intellectuals and visionaries, "MountFort" echoes uniqueness in its journey in education. As a part of its commitment to create lifelong learners who envision their own growth and create a style that works for them, Mountfort brings the world to the classroom and enables students to think for the greater good and create a new world of harmony and enthusiasm. It breaks all boundaries and lets children dream big, focus better, reflect more and thus move towards a future full of prospects.

School LEADERSHIP

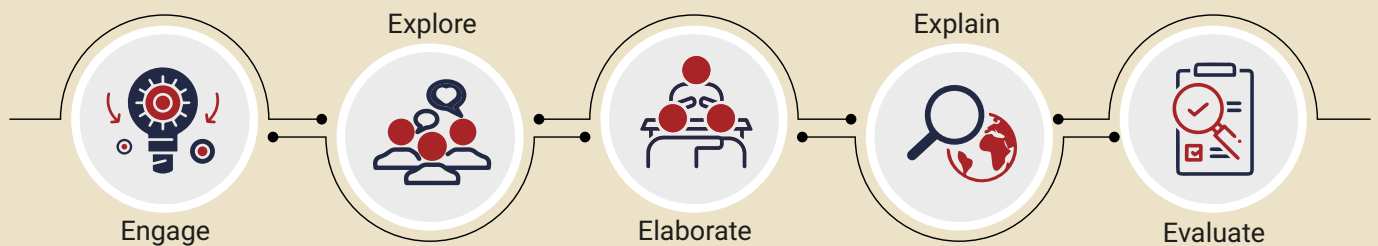

Children are the most precious possession of a nation. To bring them up in an environment which helps them grow physically, intellectually and spiritually is the greatest service to the organized society. Thus, the vision of the School is to impart quality education, coupled with latest technological advancements and imbibing human values, ethos and sanskaras in the students with a spiritual blend. The school aims at training and regulating children's thinking in such a manner that they become successful men and women in their chosen field of activity and at the same time remain attached to moral and ethical values which ensure happiness and continuity of success achieved in life. The learning process and the value

inherited in school by the students are further executed by them in the society for the service of humanity. With a great team of teaching staff and excellent students, I expect a continuous and sustainable advancement in learning and teaching at Mountfort Academy.

Dr Puja Jain

Director, Mountfort Academy. Dr Puja holds a PhD in English Literature, is a mother to two and has been a passionate educationist for the last two decades.

How we TEACH

Our VISION To impart Quality Education to every child using an integrated curriculum, which is future ready and based on true values so our children are LEARNERS TODAY, will be LEADERS TOMORROW!

Our MISSION To propagate the invaluable vedic educational concept of "Aanobhadra kartvya yantu vishwatha"- i.e. let the noble thoughts come to us from all sides.

21st century skills and attributes

Preparing a child for the world that does not exist is not an easy task for any teacher. MFA focuses on the development of critical 21st century skills which every student needs, to survive and succeed in the world. At MFA we work on developing the range of competencies that give students the skills & attitude they need to succeed in these fast changing times. These competencies are imparted through our Pedagogical Model of Engage, Explore, Explain, Elaborate & Evaluate

Our CORE VALUES

We at MFA believe in a set of core values that continue to inspire us

1. An unwavering belief in all students' potential - We believe that every single student we have irrespective of what background they are coming from have an innate potential to achieve their goals and succeed in life. We help them identify their goals and work together to achieve them.

2. A passion for excellence
- Excellence is an attitude first and it won't happen by itself and it won't happen overnight. We teach our students not to stop until good becomes better, and better becomes best, until they begin to embrace a growth mindset which will help them

recognise their limitless possibilities and achieve exponential growth.

3. Personal responsibility – To achieve this attitude of excellence we at MFA recognize and agree that we all have a role in the success of our students, our colleagues and our institution as a whole.

4. Being Respectful – Treat others the way you want to be treated is the pledge every mount fortian takes. Due regard is given to everyone's feelings, wishes, rights, and traditions.

Equally, every *fortian* has a deep admiration for someone or something elicited by their abilities, qualities, or achievements.

LIVING, LOVING, AND LEARNING @ MFA

At MFA learning life-competencies helps students to go beyond academics, understand the world around them, and prepare them to contribute to society in meaningful ways. Competencies on which we focus are:

Academic Competence : Students develop skills to learn, to analyse and contemplate varied ideas and information from a wide variety of sources which effectively contributes towards their learning process This competence contributes to student's academic success. Students are taught to think about "WHY's" and the "HOW's"

Artistic Competence: Students at MFA learn visual & performing arts which engage's them in creative processes where they explore and experiment with a variety of media. This help students in developing their imagination and personal expression. Art forms like Warli, Mandala, Sculptures, Paper craft , Drawing etc are offered to our students and under Performing Arts we make our students learn Music, Dance & Theater.

Physical Competence: Maintaining a heathy form of life with consistent physical activities, learning about meditation, nutrition various forms of exercises along with introduction and learning of various indoor & outdoor sports helps our children grow

emotionally as well as physically. Students learn about various sports and can confidentially as per their competence choose a recreational/ professional sport/physical activity they would want to pursue in life. MFA offers Indoor sports facilities for table tennis, chess, and carrom. Outdoor sports facilities for basketball, badminton, football, athletics, skating, cricket and more, are also available.

MFA also involves its students in various physical activities like Adventure Camps, Excursion trips , Day picnics and more.

Social Competence: Building an ability to engage in meaningful interactions with others, an ability to handle social interactions effectively is what we aim for. At MFA we make sure that students have lots of opportunities to experience the social world and experience situations that they're going to have to make a decision or make a plan to solve.

Emotional Competence: At MFA we focus on building "Emotional Competence" in our children. Students are made competent to learn to "read" emotions- they learn to recognize , interpret & act on their own feelings and also the feeling of others, at a level appropriate for their age and in a respectful manner. Students develop values like gratitude, empathy, perseverance, kindness, respect for others, forgiveness and more.

Cultural Competence: Focus here is to make all MFA students, Global Citizens, whilst being connected to our traditions and roots. Also make them aware and sensitive about diverse cultures.

Financial Competence: Being one of the core competency for participating in modern society, we believe in imparting sustainable practices to all students. We work towards building basic financial intelligence of our students.

Technological Competence: In this ever-growing tech world, it is impertinent to be well-equipped and informed with modern tech tools. It provides students with easy-to-access information, accelerated learning, and fun opportunities to practice what they learn along with an understanding on how to be safe & responsible users.

Environmental Competence : Students at MFA are made aware about environmental issues. They learn and understand the importance of compassion towards nature, communities and future generations.

THE MFA CURRICULUM MODEL/ ACADEMICS

The MFA Curriculum Model represents the School's commitment to optimise teaching and learning, and facilitate children's holistic development and well-being. Through a curriculum that is stimulating and creative, and an environment that is safe and child-entered, we enable the learner to explore multiple dimensions of excellence, encompassing intellectual, social, emotional and physical development. There is equal emphasis on academic rigour and engagements beyond the classroom through a wide spectrum of opportunities.

Foundational School - Mount Fort Play (Pre-KG to Class II)

- A thematic approach is designed to stimulate the children through various interactive sessions and activities
- An extensive use of teaching aids to supplement classroom teaching
- Project works in class calls for mass participation. An equal emphasis is laid on developing a strong sense of individuality

- Field trips and excursions make learning fun

Preparatory (Class III to Class V)

- A thematic approach is designed to stimulate the children through various interactive sessions and activities
- An extensive use of teaching aids to supplement classroom teaching
- Project works in class calls for mass participation. An equal emphasis is laid on developing a strong sense of individuality
- Field trips and excursions make learning fun
- Use of the newspaper articles, quizzes, crosswords and other learning tools enhance general awareness

Middle (Class VI to Class VIII)

- The emphasis is laid on building up the structured, student-centred and enquiry-based foundation laid at the Primary level.
- The curriculum is research oriented and learning opportunities are provided through worksheets in the

classroom, laboratory time, library time, computer time and small group discussion time.

- Personality development is stressed through development of academic knowledge, the ability to question, sensory experiences and a honing of creative expressions.
- Emphasis is made on group work including story time, lecture demonstrations, large group discussions, conceptual explanations and group goal setting.

Secondary (Class IX to Class XII)

- The emphasis is laid not merely on information, but also on the learning of academic and practical skills.
- The specialised program for this level strives to achieve balance between academic excellence and the life outside the realms of scholastic aptitudes.
- An equal stress is laid on preparing students for the prescribed CISCE syllabus and on preparing the students for the various competitive entrance examinations.

- Result oriented training is imparted by experienced professionals who target for total development and desired success
- Students have complete access to the various laboratories and library resources, specially designed for the study and research requirements of the senior level students.
